

Human Resources & Payroll

Employee Benefits, Tracking, and Portal SOPs

Core Portal Systems

EMPLOYEE PORTAL SESSION CRASHES

High traffic during open enrollment or end-of-month payroll cycles can cause session lockups on the HR portal. If the web browser freezes while submitting paternity tracking logs or benefit changes, the underlying database records are temporarily locked to prevent duplication. Employees should completely clear their browser cookies and cache, or log in using an Incognito/Private window. This forces a clean session handshake with the server and restores dashboard functionality.

DIRECT DEPOSIT & PAYROLL ROUTING UPDATES

To prevent banking fraud, any updates to direct deposit routing numbers, account details, or bank transfer allocations must be finalized at least 5 business days prior to the 25th of the current month. Updates made via the HR portal under the 'My Pay' tab are processed automatically by the payroll engine. If submitted past the strict deadline, the modifications will be queued and applied seamlessly to the subsequent month's distribution cycle.

Compliance & Documentation

TAX DOCUMENT (W-2) ACCESS FAILURES

If an employee is unable to download their annual W-2 or tax summary documents, the issue is typically caused by aggressive browser pop-up blockers. The documents are generated dynamically as PDF blobs. The user must navigate to the 'Tax Documents' section, explicitly disable their pop-up blocker for the hr.nexuscorp.internal domain, and verify their identity by entering the last four digits of their Social Security Number before the download will commence.

LEAVE OF ABSENCE DOCUMENTATION UPLOADS

When uploading medical clearance or extended leave documentation, the HR portal strictly enforces a 5MB file size limit and only accepts PDF formats. If a user encounters an "Upload Failed" or "Invalid Format" error, they must compress their scanned documents or convert image files (JPEG/PNG) to PDF. If the compression still fails, the documents must be encrypted and emailed directly to hr-ops@nexuscorp.internal with the employee ID in the subject line.
